

Pain Reduction ♦ Comfortable ♦ Rapid Healing
... as never before possible!

What it Treats

- Bone and joint disease
- Pain and inflammation
- Spinal cord injury and paralysis
- Soft and hard tissue damage
- Osteoarthritis
- Benign and malignant tumors
- Immune and autoimmune diseases
- Post-surgical recovery
- Increases range of motion
- Increases contractile performance of muscles

Non-invasive, comfortable ThermoWave Therapy pad is placed on the surface, usually for 15 min sessions 2-3 times per week

NEW Breakthrough technology
safely creates clinically relevant heat
41°- 44°C to 15 cm deep with
NO damage to healthy tissue

ThermoWave significantly increases blood flow, extracts excess fluids and toxins, quickly reducing pain and inflammation

How it Works

- Targets non-conforming cells
- Up-regulates the body's natural processes
- Delivers heat 41° to 44° C
- Treats 1-15 cm deep
- Increases blood flow by 1500%
- Increases cell membrane permeability
- Releases HSPs in the cell
- Delivers oxygen and nutrients
- Removes necrotic debris, free radicals
- Flushes out excess fluids
- Reduces inflammation and pain
- Corrects deregulated cells
- Effects apoptosis
- Addresses cytotoxicity
- With no damage to healthy tissue

No existing modality can achieve these results!
